

## **West Central Education District Collaborative Workshop**

Martin Luther King Day

January 18, 2010

Site: Sauk Centre School District

---

The West Central Education District is sponsoring the 4th annual Collaborative Workshop Day on Martin Luther King Day (January 18, 2010). We are very happy to welcome the Sauk Centre district this year as part of our activities. They have also graciously agreed to host the event.

The day will begin with our keynote speaker. Tami Schultz, who is the new Curriculum Director for the WCED schools, will be starting things off with her session entitled "It's All About You!" We will have two breakout sessions, grade level or content area groups, and a wrap-up speaker, Associate Professor of Education Jean Strait from Hamline University, in the late afternoon. (Lunch will be provided for all participants, and transportation options will be available for Albany and Paynesville teachers.)

Your district coordinator for the MLK workshop has either forwarded a PDF document or sent you a hard copy of a document containing complete information on the various sessions available to you during the collaborative workshop. On the attached page, we ask that you select 4 choices in rank order with 1 being the highest. There will be two breakout sessions for each participant and you will be assigned to the groups based on your choices and availability.

We look forward to seeing you at the workshop.

Doug Millaway  
Executive Director  
West Central Education District
